

5-Year (FY 2019 - FY 2023) Energy Plan Report

Algoma District School Board

Weather normalized to SAULT STE MARIE

Conditions météorologiques normalisées selon SAULT STE MARIE

Notes to Users

- Consumption data may take up to three (3) months to be posted in the UCD
- Users are responsible for ensuring:
 - all site characteristics are accurate, and
 - energy data is up-to-date
- There may be minor differences in totals between this report and other reports as a result of internal rounding of numbers
- Weather normalized reports rely on complete meter data during the baseline period Sept. 1, 2017 to Sept. 1, 2018. Where data is missing from that period, a baseline model cannot be produced and that meter is omitted from this report. The number of included meters is shown on the Meters Reporting line above.
- The integrity of any data prior to September 2011 is the responsibility of the individual board.

Definitions

"Fiscal Year" (or "Fiscal", or "FY") - The year ending on August 31. For example, FY2011 means September 1, 2010 to August 31, 2011.

"EI" - Energy Intensity

Notes à l'intention des utilisateurs

- Il peut falloir jusqu'à trois (3) mois pour que les données relatives à la consommation soient affichées dans la base de données.
- Les utilisateurs ont la responsabilité de veiller à ce qui suit :
 - toutes les caractéristiques des sites sont exactes;
 - les données relatives à l'énergie sont à jour.
- Il est possible qu'il y ait des différences mineures dans les totaux entre le présent rapport et d'autres rapports, en raison de l'arrondissement des nombres effectué à l'interne.
- Les rapports normalisés météorologiques s'appuient sur les données complètes du compteur au cours de la période de référence du 1er septembre 2017 au 1er septembre 2018. Lorsque des données sont manquantes à partir de cette période, un modèle de base ne peut pas être produit et ce compteur est omis de ce rapport. Le nombre de compteurs inclus est indiqué sur la ligne de déclaration des compteurs ci-dessus.
- L'intégrité de toute donnée antérieure à septembre 2011 est la responsabilité de chaque conseil.

Définitions

« Année Fiscale » (ou "Fiscale", ou "AF") – L'année fiscale se terminant le 31 août. Par exemple, AF2011 signifie du 1er septembre 2010 au 31 août 2011.

« IE » - Intensité énergétique

WN model exists, meter included in WN totals			Number in the cell shows % reading coverage for year i.e. 100 = readings covering 365 days						
WN model does not exist, meter excluded
