Revised by Board Resolution #009-2020 01 28

Algoma District School Board recognizes the importance of the health, safety and overall well-being of its students and is committed to taking steps to reduce the risk of injury.

The Board recognizes that children and adolescents are among those at greatest risk for concussions and that while there is potential for a concussion any time there is body trauma, the risk is greatest during activities where collisions can occur, such as during school based physical activity programs (curricular, intramural, interschool), playground time or field trips.

In accordance with Policy Program Memorandum (PPM) 158, the Board will develop and implement concussion management strategies within a Concussion Administrative Procedure which shall include:

- Concussion Awareness Strategies;
- Concussion Awareness Training;
- Concussion Prevention Strategies;
- Identification of a Suspected Concussion;
- Return to School Plan; and
- Concussion Tracking.

It is the responsibility of the Board, including Board staff and volunteers, students, parents/guardians of students under 18 years of age and sport officials to follow this established policy and the Concussion Administrative Procedure.
