Policy Statement

Technology must be used in a safe, legal, and responsible manner. Therefore, users must utilize ADSB technology in a manner that is consistent with the values and expectations of the Board. Those who are provided access to ADSB technology/devices, or who use their own technology/personal electronic devices in the Board's learning or work environment(s), whether connected to Board or Non-Board networks, are required to abide by the [Acceptable Use Guidelines for Technologies and Resources](#).
