

WP ROBOTICS STEM SUMMER CAMPS

\$150

Robotics – VEX IQ

Build and program robots using the same platform used in school competitions. A fun, team-based intro to robotics!

Grades 5–7: July 7–11

Grades 2–4: August 18–21

Computer Engineering

Learn the basics of coding and electronics by building circuits and programming in Python. No experience needed.

Grades 6–8: July 14–17

Engineering Design

Use 3D modeling software and solve daily build challenges with real-world design thinking.

Grades 6–8: August 11–15

ADSB Priority Registration: Opens May 5
Public Registration: Opens May 8
